Using Literature and other Resources

The APA citation style[1] requires different citation macros, depending on the usage and the occurrence of the reference in the text.

6.1 Narrative Citations

In narrative references, the source is used as the subject or object of the sentence. The year is placed after the author's name in parentheses. To create this kind of citation use

`\textcite{`*keys*`}`.

Example: Daniel2018 give a brief introduction to LaTeX, whereas **Oetiker2021**; **Kopka2003** go into more detail.

6.2 Narrative Citations within Parentheses

If a reference is to be used within parentheses, these must be omitted from the reference itself. The associated macro is

`\nptextcite{`*keys*`}`.

Example: In any case, it is recommended to obtain literature on the topic of LaTeX (e.g., **Daniel2018**; **Oetiker2021**; **Kopka2003**).

6.3 Parenthetical Citations

Parenthetical citations are used when the reference should be cited at the end of a sentence or statement. The author's name and year are enclosed in parentheses and separated by a comma. In this case use

`\parencite{`*keys*`}`.

Example: For LaTeX, there are short introductions (**Daniel2018**), as well as more comprehensive works (**Oetiker2021**; **Kopka2003**).
